Titus 'ideal candidate' for Circuit Court judge

I write today to address the race for Circuit Court Judge and my support for Judge Titus. I am a local attorney, based out of Finksburg and have appeared in front of Judge Titus countless times, predominantly in domestic matters. Judge Titus is knowledgeable, compassionate, fair, personable and thorough. I have been honored to appear in his courtroom and I have been consistently impressed with his knowledge and demeanor. I can say without a shadow of a doubt that he is the most qualified candidate for this position in every aspect.

We are blessed with an excellent bench here in Carroll County, and have for as long as I have been involved with the court. I consistently hear from out-of-county attorneys how happy they are to come here to Carroll because they know they will get a fair and judicious result. Judge Titus is the ideal candidate to continue our tradition of judicial excellence.

My comments are not meant to disparage Ms. Morton in any way. I have never had the pleasure of working with her, but I do know that she is skilled, experienced and has done a great service for our community. I can only speak from personal knowledge, however, and Judge Titus is more than qualified to remain on the bench.

I have fought many cases in our hallowed courtrooms and I seem to have appeared in front of Judge Titus more than our other judges, especially in contested matters. I have won cases and I have lost cases in Judge Titus' courtroom. I have never walked away with any complaints or a feeling that I had been slighted. The results are always fair, reasonable, impartial and supported by the facts.

I have lived here in Carroll for more than 25 years. I am many things. I am a husband and father. I am a citizen and a homeowner. I am an attorney and a business owner. Judge Titus is a cog in the machine that is the Carroll County that I want to raise my children in. With him on the bench, I can trust that Carroll County will be just that much better.
