Endorsing Judge Titus for Circuit Court

During this trying time, we need the pillars of our government to remain strong, effective and functional. The Judicial System is one of those pillars, which in conjunction with law enforcement ensures that we have a society that obeys the rule of law. During this upcoming election (as of this writing is now set for June), the citizens of Carroll County have an important decision to make.

There is a contested election for one of the spots on our Circuit Court. Richard Titus is the only person running who is a judge and has been approved by Gov. Hogan. As an attorney who has been practicing nearly a quarter of a century, I fully understand the importance of having a qualified bench. The Circuit Court handles all serious criminal cases, family law matters and all jury trials (I may have left out some additional areas that I do not practice). In other words, the Circuit Court makes the most important judicial decisions that affect our community and our daily lives. It is not a position that we should vote on lightly.

Judge Titus definitely possesses the test qualifications to be on the bench. Having personally tried a jury trial in front of him, I can attest that his fairness and keen judicial mindset were readily apparent. In my humble opinion, Judge Titus is exactly who we need to maneuver the citizens of Carroll County through this difficult time and those to come. That is why I am wholeheartedly endorsing Judge Titus for Carroll County Circuit Court Judge.
