## In support of Titus in judge raise

I am writing to express my support of Judge Richard Titus in the upcoming judicial election for the Carroll County Circuit Court.

As a practicing family law attorney, I have had the opportunity to litigate cases before Judge Titus and can attest to his integrity and judicial temperament. He is a fair and impartial fact finder, who is patient, yet firm, and steadfastly dedicated to the administration of justice.

As an active member of multiple specialty bar associations, I have had the privilege of attending events where Judge Titus has participated and demonstrated his interest in social issues and cross-cultural advancement within the legal profession.

As the spouse of an assistant coach to a Carroll County high school football team, I have had the opportunity to observe Judge Titus as a parent while his son was on the team and as a supporter of the Carroll County community. I can attest to Judge Titus' devotion to his children, to the school and to his community. His support has continued beyond the graduation of his children as he still serves as the home game announcer at the Friday night home varsity football games.

If the citizens of Carroll County are looking for a judicial candidate with moral courage, integrity, and intelligence, who is devoted to his family and his community, Judge Titus is deserving of their vote.
