## Supporting Titus for Circuit Court judge

I currently serve as the President of the Carroll County Bar Association, but I am writing this letter of support for Judge Richard Titus in my individual capacity.

Judge Titus and I have worked in the local legal community for nearly three decades, often on different sides of cases. Since I began my law practice in Carroll County back in 1991, I have dealt with a variety of lawyers and judges. When Richard Titus was in private practice, he advocated for his clients zealously and effectively.

When Judge Titus was elevated to the bench, he truly began to shine. He listens attentively to both sides of a dispute and ensures that all litigants have a fair opportunity to present their cases. When all the evidence has been admitted, Judge Titus makes sound rulings and judgments that are rooted solidly in the law. He has served the local legal community and all of Carroll County well with both his intellect and integrity. From my personal and professional experiences with Judge Titus, I highly commend him to the voters of Carroll County.
