Support for Titus for Circuit Court judge

Richard R. Titus, for those who do not know him, is an incredible asset to the Carroll County Circuit Court and those that reside in Carroll County. I am a retired Md Parole and Probation Agent, having worked in several Maryland counties and stood before many, many judges over the last 26 years, both good and not-as-good. Judge Titus is one of the best sitting on the bench today.

He is down-to-earth, a family-man, and easily approachable for a discussion or professional clarification. He knows the weight he carries in making important, difficult but necessary decisions as a judge and does so with the utmost clarity and respect. He controls his courtroom and bench with respect for court personnel, law enforcement, parole and probation agents, attorneys, victims, and defendants. Judge Titus truly hears what is said, thoroughly reviews all evidence and testimony before him, and makes rulings that are fair, impartial, and with complete respect for the law.

Prior to his judgeship, he worked actively as an attorney in Carroll County for 25 years; thus, well versed in the law and county. He doesn't demand respect. It is given to him wholeheartedly as a result of how he handles his courtroom, the cases before him, tasks at hand, his love for the law, and not only keeping the citizens of the county safe but to also provide the path to success in the community, should it be accepted, for the defendant. Titus is a man of character and good to his word, traits not easily found in today's world. If he says something, he means it and stands behind it. He is a professional through and through.

Now is the time for the citizens of Carroll County to vote to retain Titus on the judicial bench for the Circuit Court of Carroll County. He is a man who deeply loves and respects the law, the community, and providing a path for success, no matter how big or small, for the defendants. He is a man of his word and "what you see is what you get."

Knowing Richard R. Titus professionally, what the State of Maryland government and its citizens' receive, what the Circuit Court for Carroll County judicial bench and the county's citizens' receive, is a judge with integrity, ethics, passion, consistency, knowledge, and experience.
